Notification of pesticide application

In accordance with the Roads and Maritime Services' Pesticide Use Notification Plan (January 2016), this Forward Pesticide Application Program provides up to date information of when and where Roads and Maritime will be applying any pesticides to public places which are not included in the Roads and Maritime Approved Pesticides List. For the period 1 January 2019 to 30 June 2019, these applications are detailed below.

Hunter Region
Pesticides to be applied have active ingredient as listed on the Roads and Maritime Approved Pesticides List.

Southern Region
Pesticides to be applied have active ingredient as listed on the Roads and Maritime Approved Pesticides List.

South West Region
Pesticides to be applied have active ingredient as listed on the Roads and Maritime Approved Pesticides List.

Northern Region
Pesticides to be applied have active ingredient as listed on the Roads and Maritime Approved Pesticides List.

Western Region
Pesticides to be applied have active ingredient as listed on the Roads and Maritime Approved Pesticides List.

Sydney Region
Pesticide application in the Sydney Region is carried out by the RMS Sydney Maintenance Stewardship Contractors as follows:

- Sydney North East Zone – Downer EDI Works Pty Ltd
- Sydney South Zone – Ventia Boral Amey Joint Venture
- Sydney West Zone - DM Roads Pty Ltd

A map of the boundary areas for each Sydney Maintenance Stewardship Contract is shown below.

Forward pesticide application programs for these contractors are provided on the RMS website: http://www.rms.nsw.gov.au/about/environment/environmental-compliance/weed-management-pesticide-use.html
