M1 Pacific Motorway
Extension to Raymond Terrace

Have your say – Design changes
August 2016

The NSW Government is providing $7 million in 2016-17 to continue planning for a future extension of the M1 Pacific Motorway to the Pacific Highway at Raymond Terrace.

Roads and Maritime Services has changed the design of the extension since it was displayed for community comment in late 2015.

Feedback on these changes is invited by 28 September 2016 and will be considered in finalising the concept design and completing the environmental assessment.

Background

The M1 Pacific Motorway and Pacific Highway are critical links in the National Land Transport Network and among the busiest transport corridors in Australia.

Planning for the M1 Pacific Motorway extension to the Pacific Highway at Raymond Terrace started in 2004 and has involved an extensive community consultation program to identify a preferred route and develop a concept design.

In October and November 2015 Roads and Maritime displayed a revised concept design for community and stakeholder comment.

The feedback received was collated and addressed in a community consultation report, which is available to view at rms.nsw.gov.au/m1rt

Feedback from 2015 and this current display will be considered in finalising the concept design and environmental assessment. This is expected to be displayed for community and stakeholder feedback in 2017.

This project update provides information about these changes, which provide better access to Heatherbrae from the motorway and improve traffic flow and safety at Black Hill and Tomago.

The NSW Government has committed $200 million under Rebuilding NSW to get the project ready for construction.

Timing for construction is not confirmed and would be dependent on planning approval, future traffic needs and funding availability.
The proposal

The proposed upgrade includes:

- Fifteen kilometres of dual carriageway motorway with two lanes in each direction, bypassing Hexham and Heatherbrae
- Interchanges at Black Hill, Tarro, Tomago and Raymond Terrace
- A 2.6 kilometre bridge over Woodlands Close, the Main Northern Railway, New England Highway and Hunter River
- Minimum flood immunity along the new roadway between Black Hill and Tomago for a one in 100 year flood event
- Minimum flood immunity along the new roadway between Tomago and Raymond Terrace for a one in 20 year flood event.

Benefits

Key benefits of the proposal include:

- Improved connection between the M1 Pacific Motorway and the Pacific Highway
- Improved traffic flow for motorists and freight for more reliable travel times
- Improved accessibility to the surrounding road network
- Improved safety for all road users.

Design changes since 2015

Tomago interchange and access to Heatherbrae and the Botanic Gardens

Roads and Maritime has revised access arrangements at Tomago and Heatherbrae in response to community and stakeholder feedback.

Changes include:

- Relocating the northbound motorway exit ramp from the proposed Raymond Terrace interchange to the proposed Tomago interchange to improve access to businesses
- A free flowing interchange at Tomago to replace the previously proposed roundabout design
- Moving the link road near Tomago Aluminium further west
- A separate access road to the Botanic Gardens connecting to Old Punt Road.

New England Highway and Tarro interchange and alignment

This interchange has been moved closer to the existing New England Highway to avoid a wetland area and eliminate the need for a bridge.

Raymond Terrace interchange

The northbound exit ramp at this interchange has been relocated to the Tomago interchange. Access to Raymond Terrace would be via the northbound exit ramp to south of Heatherbrae or via the existing interchange on the Pacific Highway at Richardson Road.

Black Hill interchange

An extra lane on the northbound exit ramp has been added to improve traffic capacity and safety approaching the Weakleys Drive and John Renshaw Drive intersection.
Design changes since 2015
Tomago interchange and access to Heatherbrae and the Botanic Gardens

Roads and Maritime has revised access arrangements at Tomago and Heatherbrae in response to community and stakeholder feedback.

Changes include:

• Relocating the northbound motorway exit ramp from the proposed Raymond Terrace interchange to the proposed Tomago interchange to improve access to businesses
• A free flowing interchange at Tomago to replace the previously proposed roundabout design
• Moving the link road near Tomago Aluminium further west
• A separate access road to the Botanic Gardens connecting to Old Punt Road.

New England Highway and Tarro interchange and alignment
This interchange has been moved closer to the existing New England Highway to avoid a wetland area and eliminate the need for a bridge.

Raymond Terrace interchange
The northbound exit ramp at this interchange has been relocated to the Tomago interchange. Access to Raymond Terrace would be via the northbound exit ramp to south of Heatherbrae or via the existing interchange on the Pacific Highway at Richardson Road.

Black Hill interchange
An extra lane on the northbound exit ramp has been added to improve traffic capacity and safety approaching the Weakleys Drive and John Renshaw Drive intersection.

The proposal
The proposed upgrade includes:

• Fifteen kilometres of dual carriageway motorway with two lanes in each direction, bypassing Hexham and Heatherbrae
• Interchanges at Black Hill, Tarro, Tomago and Raymond Terrace
• A 2.6 kilometre bridge over Woodlands Close, the Main Northern Railway, New England Highway and Hunter River
• Minimum flood immunity along the new roadway between Black Hill and Tomago for a one in 100 year flood event
• Minimum flood immunity along the new roadway between Tomago and Raymond Terrace for a one in 20 year flood event.

**Involving the community**

Roads and Maritime is working with the community and stakeholders during the planning process to understand issues and minimise potential impacts. Feedback received will be considered to finalise the concept design and environmental assessment, which is expected to be displayed for community and stakeholder feedback in 2017.

**What happens next?**

Upcoming planning activities include:

- Community and stakeholder discussions, including a survey of local businesses
- Finalise the concept design
- Prepare the environmental assessment for display in 2017.

Timing for construction is not confirmed and would be dependent on planning approval, future traffic needs and funding availability.

**Project development process**

- **2004 – 2007** Initial planning and investigations
- **2008** Community consultation on the proposed upgrade
- **2010** Announcement of concept design
- **2015** Community consultation on the revised concept design
- **Community consultation on design changes**
- **2017** Display Environmental Impact Statement
- **Approval to proceed***
- **Detailed design***
- **Construction***

*Timing subject to planning approval and funding

**Have your say**

Feedback on the design changes is invited by 28 September 2016.

Please send your feedback by:

- **Phone:** 1800 094 895 (during business hours)
- **Email:** M1RT@jacobs.com
- **Mail:** M1 to Raymond Terrace Project Manager Roads and Maritime Services Locked Bag 2030 Newcastle NSW 2300

**Further information**

More information about the project is available at [rms.nsw.gov.au/m1rt](http://rms.nsw.gov.au/m1rt)
