Installation of new Starkey Street pedestrian bridge and closure of Warringah Road, 10pm Saturday 2 to 6am Sunday 3 December

The NSW Government is planning improvements at the Starkey Street and Warringah Road intersection at Forestville to improve traffic flow.

Roads and Maritime Services will install a new pedestrian bridge at the intersection of Warringah Road and Starkey Street on Saturday 2 December and Sunday 3 December.

Installation of the new pedestrian bridge

To ensure the safety of workers and road users and to reduce the impact on the road network, this work will be carried out at night, between 10pm Saturday 2 December and 6am Sunday 3 December. The work will involve:

- closing Warringah Road, between Darley Street and Cook Street
- closing slip lanes
- installing traffic control
- installing site fencing to delineate the work area
- establishing safe access and egress points for workers and vehicles
- lifting and installing pedestrian bridge sections
- setting up and demobilising the crane.

Closure of Warringah Road

To install the bridge, Warringah Road will be closed to general traffic between Darley Street and Cook Street on Saturday 2 December. This closure is necessary to ensure the safety of workers and road users, and to allow the work to be carried out as efficiently as possible. Detours will be in place.

As this is a major construction activity, work will only be carried out if weather permits. We have included a map to show the location of the work and the traffic changes.

During the closure of Warringah Road, local detour routes will be in place for light vehicles only. Heavy vehicles will need to detour via Mona Vale Road and the Pacific Highway.

Please plan your journey to allow additional travel time or avoid the area if possible.

Keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Detours for pedestrians and local traffic only

Please see the detour map overleaf.
**Public transport changes**

Buses will divert via the local traffic detour, with some stops on Warringah Road and Starkey Street being missed. See below for details of nearby alternatives:

</table>

Check signs at stops or visit transportnsw.info for details and to plan your trip.

**How will the work affect you?**

The work will involve the use of machinery which will generate some noise. We will make every effort to minimise impact by notifying the community and motorists. We will use noise shields to dampen noise where appropriate and ensure equipment and vehicles are turned off when not in use. We will focus lights only on the working area, however there is likely to be some spill-over of light into some nearby residences.

**Contact**

We are committed to minimising the impact of construction on the community and will continue to keep you informed as the project progresses. If you have any questions, would like to register for project updates or have any feedback, please contact our delivery partner, Christie Civil.

**Call:** 1300 997 860 (free call 24 hours per day)
