Night work at Nepean River Bridge western compound from Monday 19 March

The NSW Government is building a new pedestrian and cyclist bridge over the Nepean River to connect Penrith and Emu Plains.

Roads and Maritime Services is continuing to deliver this new bridge which will provide a safe crossing for pedestrians and cyclists over the Nepean River and improve connections to existing and future shared paths, including the Great River Walk.

Installing steel box girders

We will be installing two large steel box girders to form part of the western approach to the bridge. The girders have been fabricated off site and due to their size can only be transported and lifted into position at night. To complete the work, we will require up to two shifts of night work from Monday 19 March to Wednesday 21 March, weather permitting. Our working hours are 6pm until 7am.

The work will include:
- arrival and setup of a 400 tonne crane on the western side of the Nepean River, off Punt Road
- delivery of box girders on large load semi-trailers
- crane lifting of the girders into position and fastening into place.

We have included a map to show where the work will take place.

How will the work affect you?

There will be some noise and light associated with this work. We will make every effort to minimise noise. We will focus portable lights on the working area to minimise light spilling into nearby residents.

Traffic changes

Temporary traffic changes will be in place to ensure the work zone is safe for motorists and workers.

Please keep to speed limits and follow the direction of traffic controllers and signs. Please plan your journeys to allow for possible delays. For the latest traffic updates, call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

If you have any questions, please contact the project team on 1800 851 934 or nepeanbridge@rms.nsw.gov.au.

For more information on our projects, visit rms.nsw.gov.au.

Thank you for your patience during this important work.
