Project update for intersection improvements at Parker Street (The Northern Road), Kingswood

The NSW Government is funding this $1 million proposal at the intersection of Derby Street as part of its $246 million Pinch Point Program, which aims to reduce traffic delays, manage congestion and improve travel times on Sydney’s major roads particularly during weekday peak periods.

Roads and Maritime Services sought community feedback on a proposal to improve the intersection of Parker Street and Derby Street, Kingswood and on our night construction work schedule in November and December 2015.

We have included a map to help explain the location of the proposal. The work would include:

- Extending the northbound and southbound right turn bays on Parker Street
- Removing concrete in the centre median where the right turn bay is extended on the southern side of the intersection
- Removing up to 11 native shrubs where the right turn bay is extended on the northern side of the intersection
- Adjusting the kerb line in the centre median where the right turn bays are extended
- Installing CCTV to monitor traffic
- Adjusting traffic light phasing
- Removing and replacing asphalting and line marking.

We received 13 comments from nine people. Key points raised include parking, traffic light improvements, the design, line marking improvements and vegetation removal.

We have prepared a Community Consultation Report which summarises the feedback and our responses. A copy of this report is available at rms.nsw.gov.au/projects or by contacting the project team.

Following a review of feedback community and stakeholder comments, we have decided to proceed with the proposal and the proposed construction work schedule.

We would like to thank everyone who took time to consider our proposal and provide feedback.

What happens next?

We expect to start construction in the second quarter of 2016 and will notify the community and stakeholders before construction starts.
Contact
